## – WHY COMPROMISE

*An attractive investment*

# ALTO®

Why  
Compromise™

Clarke  
TECHNOLOGY

*The SCRUBTEC family of walk behind scrubber dryers represent a new performance standard in the market. It combines electronic technology with simplicity*

#### High productivity

- Impressive scrubbing with aggressive brush pressures
- Easy to manoeuvre in tight spaces
- Long running time thanks to the large tanks and battery compartment
- Charge the batteries anywhere with the on-board charger
- Large solution/recovery tanks
- Heavy-duty brush drive motor
- Solution and brushes off when machine is not moving
- Change brushes easily with the “flip-up” brush head

#### Focus on durability

- Heavy gauge welded steel chassis with powder coated paint protection
- Rugged, corrosion-proof Polydur<sup>®</sup> solution & recovery tanks
- Break-away squeegee
- Non-marking, solid neoprene wheels
- Low battery protection

#### Focus on safety

- All electric components are protected with thermal fuses
- Safety yellow palm start buttons
- Key switch on traverse models to prevent unauthorised use
- Smooth lines – Excellent line of sight

## A passionate partner - with an impressive range of features

With the compact and easily manoeuvrable ALTO SCRUBTEC 743/751 walk-behind scrubber dryer, your floor cleaning tasks are successfully accomplished in next to no time.

Supreme water pickup, reliability and simplicity in daily use/maintenance and the machine's capability to go backwards with the squeegee down are just some of the new features proving that we have developed a machine with numerous advantages.

The product design is so versatile that it applies to several market segments without compromising individual customer needs.

Therefore, the SCRUBTEC 743/751 is designed to strengthen our strategy in being a full line supplier of floor care products and naturally in keeping customer needs in focus.

# Flexible in use

- Hospitals
- Industrial facilities
- Office buildings
- Warehousing
- Supermarkets
- Shopping centres

Several models available: Choose models with either disc brush (first illustration) or cylindrical brush (second illustration) with or without traction.

# Value for money

- 
- Large lid and no vacuum tubes make cleaning of recovery tank easy
  - Machine automatically shuts off if left on and not in use after 15 minutes to save batteries
  - Low battery protection
  - Electronic float switch shuts off vac motor when recovery tank is full
  - Recovery tank is easy to remove for cleaning
  - Rear fill permits filling with bucket or hose while draining the recovery tank
  - On-Board charger permits charging anywhere
  - Heavy duty trans-axle on traction drive model
  - Large 42 litre solution & recovery tanks
  - Bristle brush skirt permits double scrubbing
  - Squeegee has 4 usable blade edges & requires no tools to change
  - Head flips up 60 degrees at the touch of a button for ease of changing brush or pad
  - Solution filter with shutoff valve
  - Rotary disc or cylindrical head options
  - Solution and brush off in neutral
  - Heavy duty non marking wheels

# Choose the perfect scrubber for your needs

The ALTO SCRUBTEC 743 series offers a choice of four models: Two standard models and two luxury model, available either as rotary or cylindrical version, all have 430 mm cleaning path. We also provide a wide range of options so you can custom-build your scrubber to match your specific cleaning needs.

The ALTO SCRUBTEC 751 series offers a choice of two models: One standard model and one luxury model, with rotary brushes.

S for Standard, L for Luxury  
R for Rotary, C for Cylindrical
